## OBJECTIVE:

Resourceful, self-motivated, results oriented individual that seeks employment with a professional organization utilizing my experience and skills in design, writing, website design and construction, architecture, city planning, bioregional planning and sustainable community design, and in interdisciplinary and team coordination.

## EXPERIENCE:

### July 2007 - February 2009: Bioregional Planning & Community Design Research Assistant University of Idaho, Moscow, ID.

At the University of Idaho served as the lead research assistant that researched, designed, and helped implement a "Carbon Neutral Environmental Learning Center" master plan for the McCall Field Outdoor Science School. I organized project team meetings to review and discuss the project's status. I traveled to Washington D.C. and Boise, ID and made presentations on the project in order to increase public awareness. I developed the final schematic master plan for the project and researched the feasibility of a biomass energy facility for the project. I am also the initial and current University of Idaho's **Bioregional Planning Department** webmaster.

### July 2007 - December 2007: Production Draftsman at WSU Facility Operations Washington State University Facility Operations, Pullman, WA.

At FacOps I worked with architects in the operations department to create architectural drawing utilizing my AutoCAD skills. I conducted site surveying and analysis, and worked on construction documents for several projects.

## Welcome!

Defined by a truly interdisciplinary approach that brings together experience and expertise from nine academic departments in eight colleges, the relatively new bioregional planning program at the University of Idaho is quickly gaining momentum and recognition as a top program. The program is driven by faculty, students, and community members who are committed to sustainable community development, and planning and design in the Intermountain West and beyond.

The program offers the following:

- **Master of Science in Bioregional Planning and Community Design:** Includes specializations in land use planning; environmental planning; economic development planning; transportation planning; public land planning; and housing, social and community development planning.
- **Graduate certificate:** Designed for those who want to incorporate sustainable planning principles and concepts into a related professional discipline, such as transportation engineering, environmental

Welcome to the new and improved **Dreamscape Graphics** version 1.6 "Summer Love". I am almost 75% finished with completing all the sections that I added since version 1.4. You can check my progress [here](#). I hope to add more graphics and grow a decent size graphics selection in time. I am now accepting requests for layouts but be warned, it will probably take me a while to finish your order if you request one... like several weeks. So you'll need to be patient for them.

Just A Note- This webgraphics site is a **linkware** site. If you decide to take an image from here or if I make one for you then I would greatly appreciate a link back to here. It's not too much to ask, really, and it's not that difficult either. In short, just don't steal my images. Please give a link back here if you use anything. You can get a button from [here](#).

## Updates:

**10-28-02**

Thank you Rei for your donations ^.^ I greatly appreciate it. I will get those layouts up either tonight or tomorrow. Once again, thank you! In other news, I added yet another Chromeless Popup+CSS Layout made by me. I will be working on a new Dreamscape Graphics winter layout soon as well.

**10-22-02**

Added one new Chromeless Popup+CSS Layout today \*spiffy\*
